Synergistic education of parents with children with special needs-SynergyEd

Survey Results on eLearning Platform Quality

Survey was conducted to evaluate the quality and effectiveness of an eLearning platform designed for parents of children with special needs. The key findings from the survey are as follows:

1. Overall Quality

- A majority of respondents (85%) rated the platform as "Good" or "Excellent." Around 11% rated it as "Average," with only a small percentage (4%) considering it "Below Average" or "Poor."

2. Content Relevance and Helpfulness

- 91% of parents found the content to be "Very Helpful" or "Somewhat Helpful." About 8% were neutral, while 1% found it "Slightly Helpful" or "Not Helpful."

3. Ease of Navigation

- 89% of users felt the platform was "Very Easy" or "Easy" to navigate, while 9% found it "Average." A smaller group (2%) reported difficulties.

4. Clarity of Information

- A positive response was received, with 83% indicating that the information was "Always" or "Most of the Time" clear and understandable. A minority (17%) reported occasional difficulties in comprehension.

5. Resource Accessibility

- 97% of parents found the resources "Very Accessible" or "Somewhat Accessible" according to their schedule, while 3% felt neutral.

6. Recommendation Likelihood

- 87% of respondents stated they were "Very Likely" or "Likely" to recommend the platform to other parents. A small percentage (13%) felt neutral to recommend it.

7. Suggestions for Improvement

- The open-ended responses highlighted a desire for more interactive content, such as videos and interactive exercises, as well as additional resources to cover a broader range of special needs. Some parents also recommended creating a mobile app for easier access to the content.

Overall, the feedback indicates that the platform is well-received, particularly in terms of relevance and accessibility, but there is room for improvement in personalization and user experience.
